

Bob's decorative wallpapers

1. Introduction

- Give a brief introduction to your project and the list of features. Summarize in a few sentences what you proposed in the ideation report.
 - there are two types of users: administrator and client, both of them are allowed to do login in the page.
 - every user could comment a product if he is already logged.
 - an client user is allowed to request a product to a seller (initially only the administrator users would be the sellers).
 - an administrator user is allowed to publish a product and modify it (image, price, availability...) or delete it from the database.
 - an user could see all the published products and their attributes in the products seccion even if he is not logged on the page.

2. User Interface Design and Prototype

- Give some sample user interface layouts for your application. You can use either wireframe diagrams or prototyping tools to construct the mock representations of our UI design

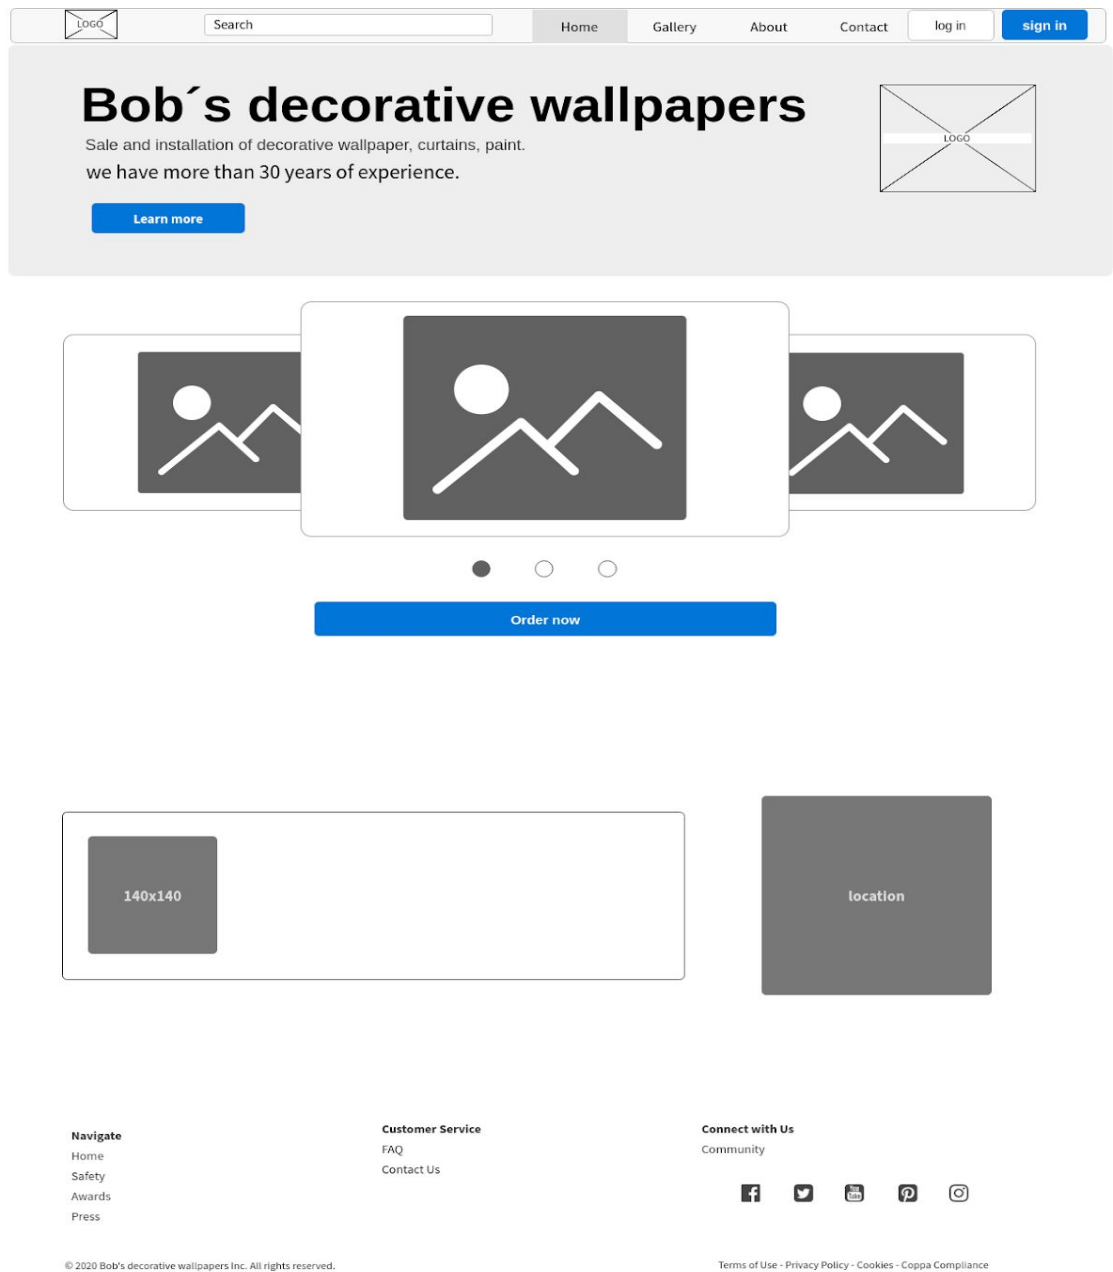

All of these pages will have a navbar, that will allow the user to:

- return to the main page by clicking the business logo.
- search for a product by typing keywords on a search bar.
- go to the home, gallery,about or contact page by clicking their respective link.
- do login or sign up to the page by clicking the respective button.

Also, every page will have an footer that contains:

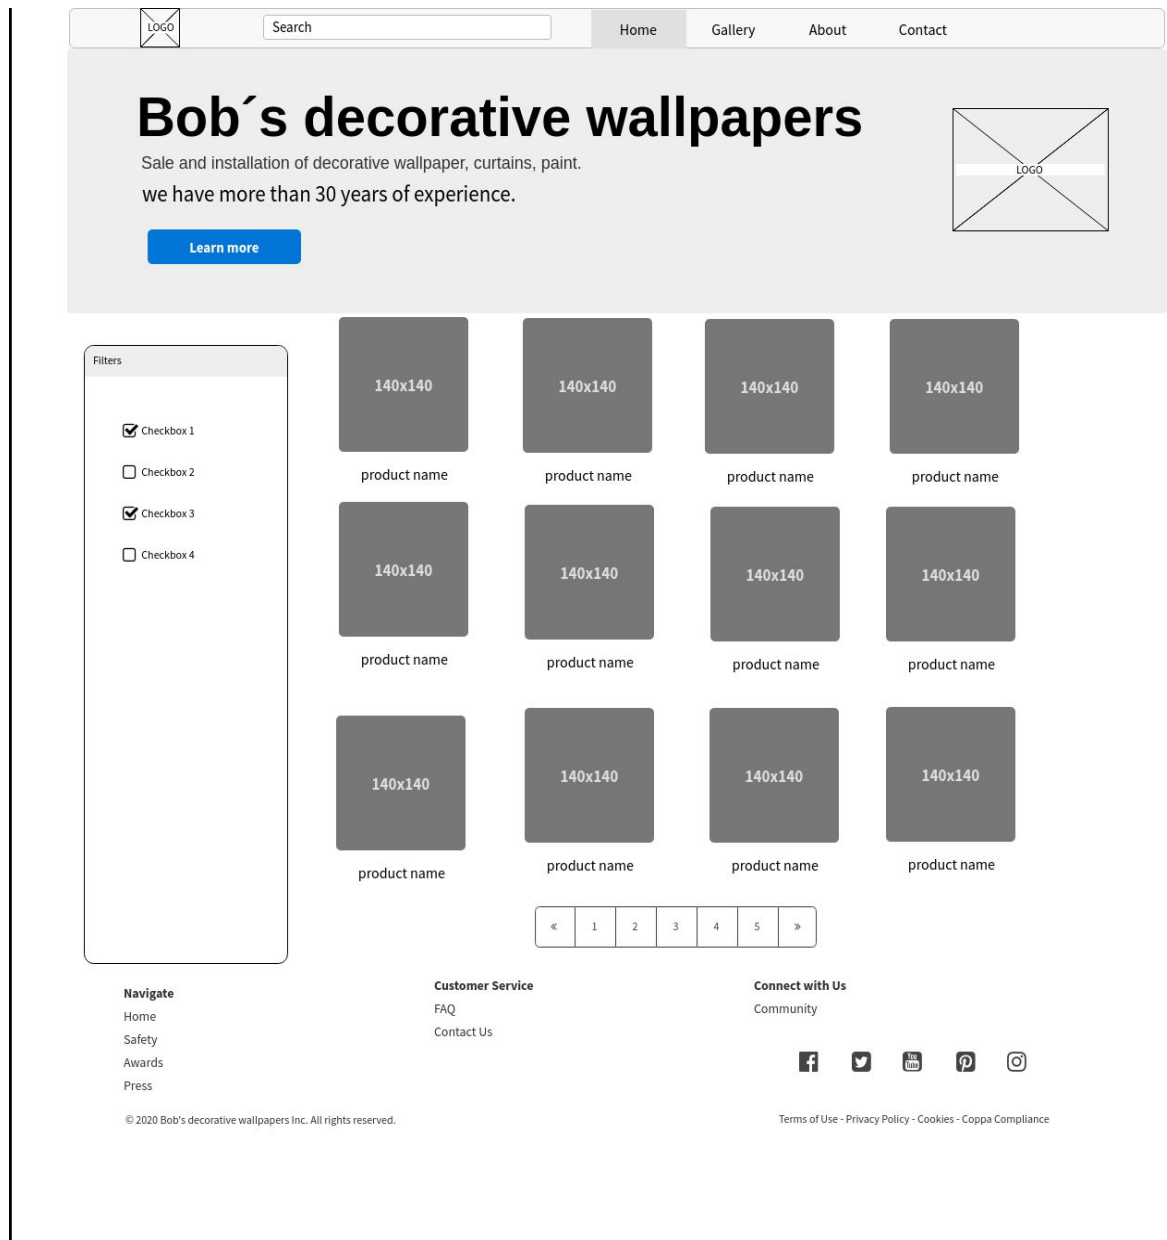

- a navigation section.
- a customer service section.
- a social networks section.

Home page:

- the carousel will show featured products, the user will be redirected to the product on gallery by clicking it .
- the user will be redirected to the gallery by clicking on the order now button.
- at the end of the page will be a section dedicated to the CEO info or a business fact and the user will be redirected to the about page by clicking it.
- at the end of the page will be the google maps location of the business or it could be changed by an info button ... the user will be redirected to the contact page by clicking it.
- the user will be redirected to the about page by clicking on the learn more button located in the jumbotron.

Gallery page:

-in this page will be shown the products that feets on the filter conditions.

-the user will see an overlay of the product that he clicks, showing him info about it and the user could comment about it if he is already logged.

-if the user is an administrator, he could use a button to add a product and he will by allowed to delete a product by clicking on a x button that will be shown on the top of every product.

-the user will be redirected to the about page by clicking on the learn more button located in the jumbotron.
